

FHP Approval Date:			AOP Approval Date:		
Disposition:		FMAF020040	Amendment #:		
Compartment:			Opening Number:		
	Block Addition	to the approved FHP harvest area boundary is greater than 10% or 1ha, whichever is greater.			
	Block Deletion	exceeds the 20% variance tolerance by compartment (refer to FHP for variance percent).			
	Moved Exterior Road	to existing access/convectional seismic line where re-growth is greater than 3m and distance exceeds 100m approved FHP access.			
	New Exterior Road	right of way development greater than 40m from approved FHP access.			
	Moved Interior Road	where the total amount of soil disturbance exceeds 5% (excluding blocks less than 7ha or narrow).			
	Interior or Exterior Road required within watercourse buffer	road, landings, decking or bared is required within: <ul style="list-style-type: none"> • 100m of a large permanent or lake, or • 30m of a small permanent, transitional, intermittent watercourse. 			
	Downgraded Crossing	from a bridge (timber, ice, steel span) to a fill (snowfill, log fill)			
	Adding or Changed Crossing Location	on a large permanent watercourse.			
	Harvest Season	changed from frozen to non-frozen.			
	Other	(i.e. addition of blocks to the Forest Harvest Plan and/or Annual Operating Plan, extension request).			
Rational:					
Y/N	Adheres to the Operating Ground Rules (i.e. variance requests)?				
Y/N	Review of the unapproved 2016 DFMP buffers has been completed, and the amendment is not within the buffered area?				
Y/N	Spatial data has been update in database (SilvaCom/Trimble), including attribute information?				
Y/N	Within an existing Timber Disposition?				
Y/N	Does not adversely affect required riparian buffers, wildlife sites, historic resources, aesthetic values, or other known sites (i.e. Final Unique)?				
Y/N	Reviewed by planning to ensure SHS OGR have been maintained (Additions less than 20%, Deletions are justified)?				
Y/N	DIDs and/or LSAS report has been reviewed and applicable landuse agreement approval has been obtained?				
Y/N	Reviewed by planning to ensure known site specific concerns are not effected (i.e. First Nations, HRIA)?				
Y/N	Ribbons have been updated, where applicable?				
Y/N	Map has been created?				
Y/N	Trapper has been notified?				
Y/N	Change has been reviewed by a company supervisor and is pending approval from Alberta prior to the change being carried out?
